

Wow,

Cakes 4 Kiddies turns 13 this year, I needed someone to bake my son's 1st birthday cake and could not find anyone that I was happy with, so I decided to bake and decorate it myself!! The cake was a super hit. Since then my business has just grown.

I work on my own and bake and decorate each cake myself, thus ensuring that each cake receives individual attention. I work from home, which means I am flexible with my hours, I also limit my orders per week so I can give 100% to the clients I am baking for.

All my cakes are made using the best quality ingredients ensuring a "Homemade Cake", no pre-mixes are used and all cakes are baked freshly for collection, ensuring you receive a moist and delicious cake each time you order from Cakes 4 Kiddies. All cakes ordered are placed in strong cake boxes, making transportation easy.

"Last minute orders are always welcome, but please call me directly to place them as emails are only checked and replied to in the evenings."

All Cakes are available in Butter/Vanilla sponge, Chocolate, Marble and Madeira.

You can choose from a **2D/molded** theme cake like Mickey Mouse, Winnie the Pooh and many more or a cake or cupcake with an edible picture of anything from WWE to Hannah Montana. I also make a variety of **3D** cakes like Winnie the Pooh, a Bowling Alley, Princess Castle, Animal Farm, Pirate Ship and others.

Egg free cakes are also available in Chocolate, Chili Chocolate, Vanilla Sponge and Granadilla sponge. I have been making eggless cake for vegetarian family and friends and it has proved a big success, the egg free cakes are made from the finest ingredients and **NO**

PRE-MIXES

are used. Once you have tasted my homemade birthday cakes, with eggs or without you will never eat a cake bought from a bakery or convenience store again!

** Cakes may differ slightly from pictures in the galleries & cup cakes shown with cakes in pictures are not necessarily included with the cake.*
